MARIEL CLARIZZE D. DOMINGO

marieldomingo0@gmail.com|09151314752|Piat, Cagayan

SUMMARY

Motivated Computer Engineering student with intermediate-to-advanced skills in Python, C, C++ and Java programming, microcontroller simulation (Proteus, MPLAB IDE), and data analysis using Microsoft Excel. Passionate about embedded systems, numerical methods, and technical problem-solving. Experienced in academic research projects, code optimization, and circuit simulation, seeking a student internship to apply hands-on skills in real-world engineering challenges. Eager to contribute innovative ideas while gaining practical industry experience.

ACADEMIC EXPERIENCE

- Designed circuits with Multisim and integrated them into PIC microcontroller projects to build practical hardware skills.
- Designed and simulated PIC microcontroller circuits using Proteus and MPLAB IDE for an Embedded Systems course, implementing LED control and sensor interfacing
- Completed key coursework in Python, C, Java, and C++, developing strong foundations in coding principles, logic design, and performance tuning.
- Coded a basic inventory database in SQL, querying data structures for a programming elective.
- Built a root-finding tool with bisection method and Implemented Newton-Raphson solver in Excel for a numerical methods assignment, testing convergence on sample equations.
- Contributed to a team research project evaluating PIC microcontroller performance for IoT applications, conducting simulations and literature reviews.

EDUCATION

Cagayan State University - Carig Campus — **2023 - Present**
Bachelor of Science in Computer Engineering
Tuguegarao City, Cagayan

Piat National High School - SHS — **2021 - 2023**
Science, Technology, Engineering, and Mathematics
Piat, Cagayan

Piat National High School - JHS — **2017 - 2021**
Tuguegarao City, Cagayan

Sta. Barbara Maguilling Elementary School — **2010-2016**
Piat, Cagayan

KEY SKILLS

Programming Languages:
- Python, C, C++, Java

Tools & Software:
- Proteus, MPLAB IDE, Multisim, Visual Studio, Excel

Soft Skills:
- Problem-solving, teamwork, time management, project documentation, fast learner, good communication skills

Technical Areas:
- Embedded systems (PIC microcontrollers), circuit simulation, numerical methods, data structures, OOP, debugging
